

Paved surface

Benches to the street

Paving to bleed from street into kiosk area

Change of grading, allowing for level plaza

Light weight pergola linking kiosks, allowing for over head greenery and a heralding of the entrance

Bench to the street

Paved surface

Raised planter, with bench seat edging

Organically formed garden beds bring softness to space

Retaining walls with balustrade above

Kiosks, to be further designed by architects

Large fixed table, providing a space for larger parties

Planter

Access path to neighbouring building

Trees in gravel, providing overhead canopies and division of space

Gravel surface

Loose furniture, allowing for flexibility

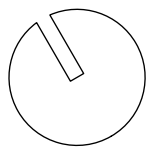

Fixed bench seating

Green roofs to kiosks

Stairs down to Fire Control Centre
