

* The purpose of this Detail & Contour Survey is for general design and concept planning only and is not to be used for any form of construction.

* A full boundary definition must be made where any construction is to take place on or near the boundaries, or at a nominated minimum distance from the boundaries.

* No responsibility will be taken for any other information that may be added or overlaid on this plan

* Clarke & Di Pauli have surveyed all services visible on the surface at the time of survey.

* It is strongly recommended that a full services search be made with the relevant authorities and "Dial-Before-You-Dig" before any construction takes place.

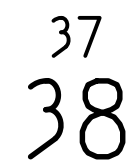

* Title boundaries are from DP8006 plan dimensions only and were not marked as part of this survey.

* Symbols shown herewith may not reflect the object's actual size & orientation.

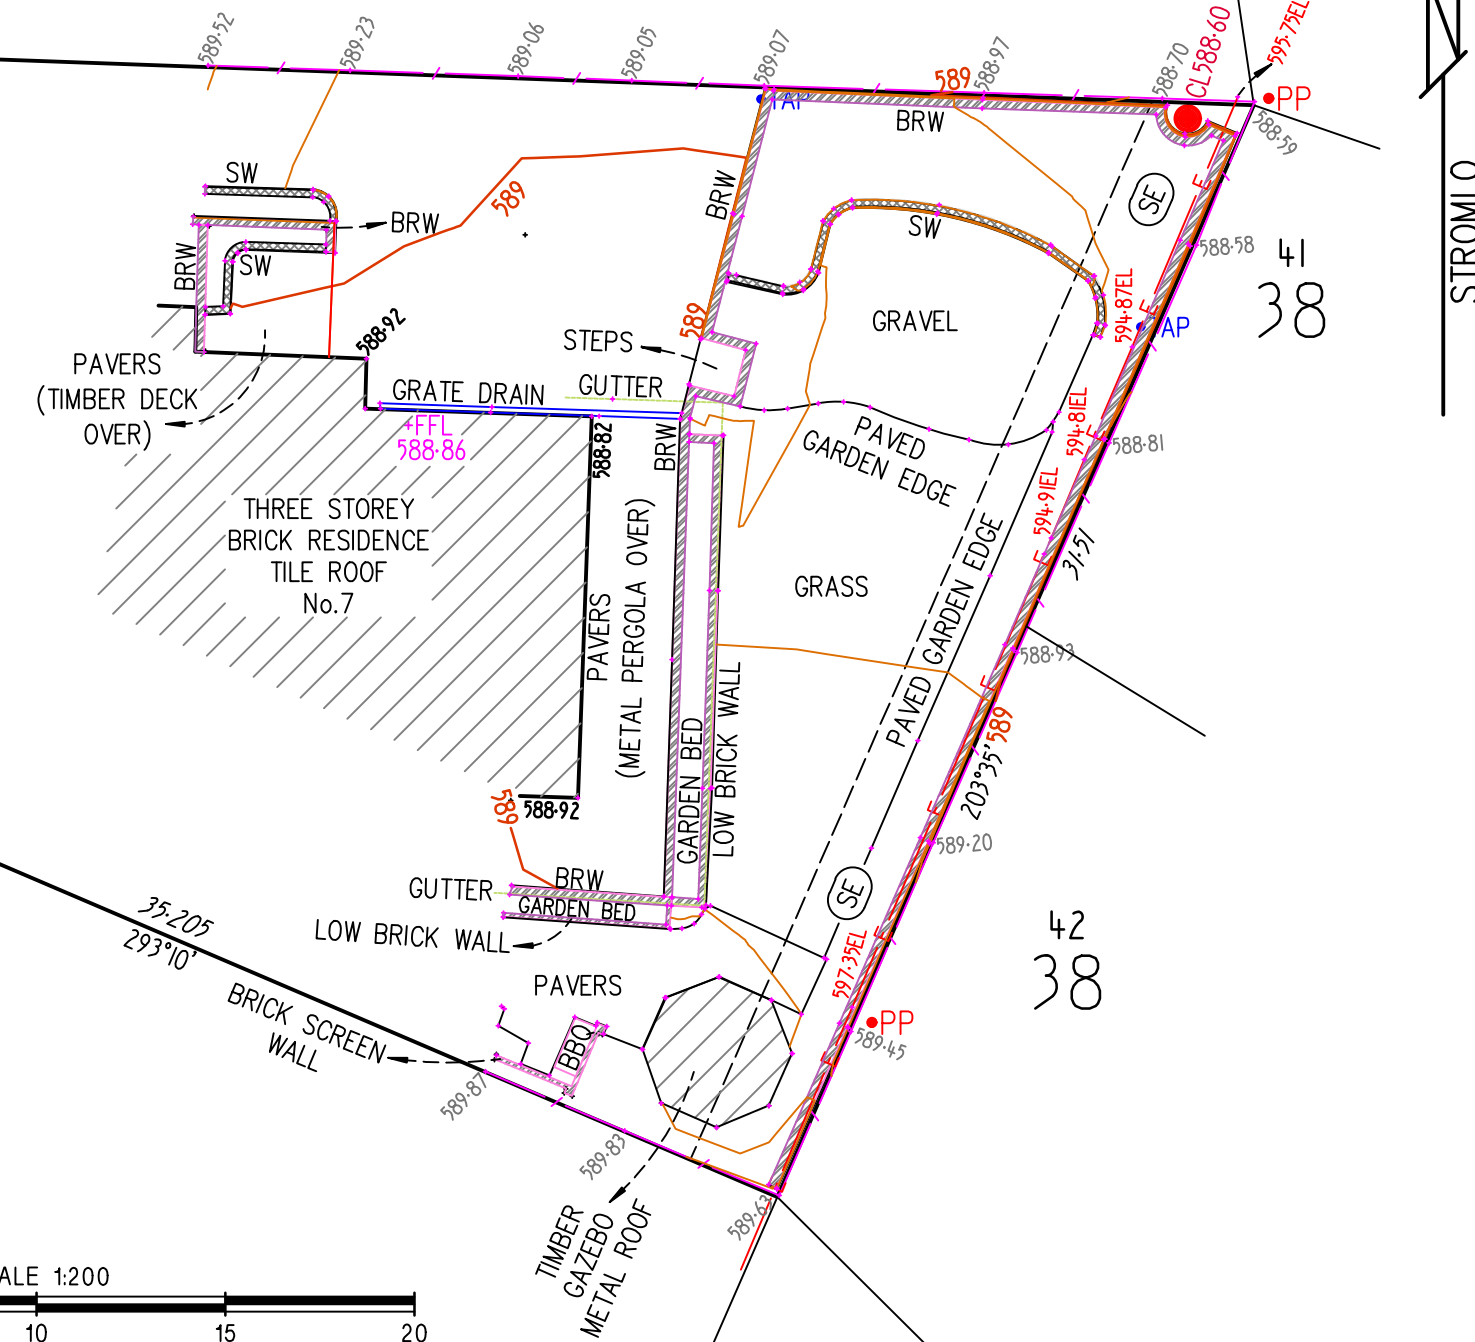

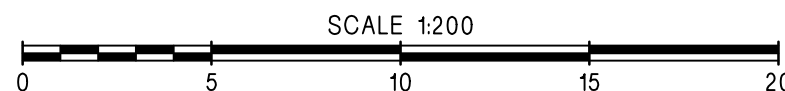

* Coordinates are on AGC datum and have been determined from published values for CRM6109.

* Reduced levels are on the AHD datum and have been determined from published values for KBM4961.

+	SPOT HEIGHT
⊙BM	BENCHMARK
•PP	POWER POLE
+FFL	FLOOR LEVEL
•TAP	TAP
●	SEWER MANHOLE
—E—	ELECTRICAL CABLE (ABOVE GROUND)
—/—	FENCE
---	CHANGE OF GRADE
BRW	DENOTES BRICK RETAINING WALL
SW	DENOTES STONE RETAINING WALL
ⓈE	DENOTES PROPOSED SEWERAGE AND ELECTRIC SUPPLY SERVICE EASEMENT 2:5 WIDE
